## Summary

I am a motivated and enthusiastic student passionate about technology, looking to develop a career in automation and computer science. Through my studies, I have built a strong technical foundation and developed an interest in modern technologies and their real-world use. I enjoy working in team environments where I can apply my problem-solving skills, continue learning, and contribute to shared goals while gaining practical experience.

## Courses

**Social Entrepreneurship Course**
January 2025 - June 2025

## Hobbies

Volleyball, GYM, Gaming, Hiking

**Cloudfight Coding Contest 40th Edition**
October 2024
A hackathon with 7 levels of difficulty, which tested our problem-solving and teamwork. With my team, we managed to reach level 5 through consulting each other's ideas, mixing them, and fixing our mistakes through trial and error

**Coderun 5th Edition**
November 2024
We were given 2 weeks of online courses in ReactJS, Django, SDL2, Java, Arduino, and Cybersecurity. After that, the contest was 2 days long, and we had to put our learned skills to use and try to get as many points as possible.
